Buoyancy Continues in Stock Market; Heavy Advance Scored in Both Groups

PRICES CLIMB HIGHER AFTER EACH RECESSION

Expected Reaction Fails to Appear Market Cleared of Steel Syndicate's Unsold Holdings.

NEW YORK, Dec. 4.-The stock market this morning was a disappointment to those who had looked for some reac tion after the extensive dealings and sharp advances of yesterday. On the contrary, the fluctuations were of the most ordinary character, and after every small concession the movement of

prices was toward a higher level.

The tone continued uniformly strong throughout the early session. At noon the market was active, and dealings promised to exceed one million shares. The activity was fairly well dis-tributed, and strength was practically

uniform. An important stimulating in-fluence was the announcement that the market had been practically cleared of the syndicate's unsold holdings of United States Steel bonds.

In addition there was a repetition of recent rumors with regard to a settlement of the Gould-Cassatt contro versies, and reports of the probable carrying out of the plan for unifying the

carrying out of the plan for unitying the Gould properties. Speculation was active after the first hour, and concessions from best prices were only trivial. Government bonds were unchanged; railroad bonds active and strong. The market opened active and generally stronger. A few stocks in the railroad list which were aggressively strong yesterday, failed to gain. Atchison, Canadian Pacific, and Southern strong yesterday, 'alled to gain. Atchison, Canadian Pacific, and Southern Pacific lost %. The soft coal stocks were strong. Baltimore and Ohio gained %. There were heavy dealings in steel 5s, and they gained %. Steel preferred rose %. Copper was only nominally stronger.
